What is LifeTest™

Welcome to the world of **LifeTest™**. We respect your courage in reaching out and seeking information from a health system that is unfamiliar to you.

A Personalized Health Care Experience

LifeTest™ is a powerful technology - but healing combines heart, hand and mind. Our technicians at Life Assessment Systems are dedicated to provide you with a personalized, caring experience.

The Present State of Your Health Can be Energetically Measured

LifeTest™ is similar to hooking your car up to an electronic diagnostic unit at the car dealership. In our case, the micro-controllers in your engine are specific acupuncture points on the hands and feet. Taking measurements at these points is a non-invasive (no needles) procedure and can evaluate the relative health of all organ systems.

LifeTest™ Identifies What Your Body Is Asking For

The car diagnostic unit alerts your mechanic to issues with your engine. As a result the mechanic is able to make adjustments or replace parts. LifeTest™ alerts our technicians with issues in your tissues. LifeTest™ gives instant feedback as to which specific herbal or homeopathic remedies (as well as nutritional products) are required to keep you at optimum performance.

The Wins of Change

Because symptoms are not always an accurate reflection of what is going on in your body, each LifeTest™ session is recorded. This allows us to chart your true progress. Our intent is to balance all readings and allow your body to express its native heritage: Vibrant health!

Peace of Mind

As you know, health is not static. It is dependant on lifestyle, emotional factors, nutrition, exercise and genetics. After you are balanced, you will be encouraged to take advantage of a checkup program designed to maintain your health and your peace of mind.

Everyone Can Benefit - Even Without Symptoms!

As long as you have fingers and toes, you can be tested and there are no age barriers. It's not just about getting well, but also about staying well. And just like the engine light on your dash alerts you to a potential engine problem, LifeTest™ is adept at identifying subtle disturbances before they manifest as symptoms or disease.

An Amazing Tool, for Amazing Results

LifeTest™ is based on research conducted by Dr. Reinhold Voll, a German physician. Dr. Voll spent the better part of 20 years investigating and perfecting this

system of evaluation and treatment in German hospitals. Today, thousands of physicians in Europe use this technology as a diagnostic tool. With the advent of computerization, LifeTest™ has become an invaluable energetic assessment tool with the potential of truly remarkable results.

Credentials

Our LifeTest™ technicians are from diverse medical backgrounds. All of our technicians have spent thousands of hours in training to obtain accurate, reproducible results. LifeTest™ has evolved over the last ten years into a safe and effective evaluative procedure. We are constantly streamlining and enhancing the protocols used in our system.
